

UNIT PM-A — BASIC SERVICE

- Engine oil & filter
- Coolant level/condition
- Brake fluid level
- Power steering fluid
- Washer fluid
- Belts (cracks/wear)
- Hoses (leaks/soft spots)
- Headlights / tail / turn
- Marker/clearance lights
- Horn
- Wipers & spray pattern
- Tire pressures
- Tread depth / wear pattern
- Wheel seal leaks
- Lug nuts
- Check for leaks (oil/coolant/fuel/DEF)
- Exhaust leaks/damage
- Suspension (springs, hangers, bushings)
- Dash warning lights
- Seat belts
- Mileage/hours updated
- Defects noted

Unit PM-B — INTERMEDIATE SERVICE

(Includes all PM-A items)

- Replace fuel filters
- Replace air filter / check restriction
- DEF level & system check
- Transmission fluid level/condition
- Brake lining thickness
- Drums/rotors
- Calipers/slack adjusters
- Brake hoses/lines
- Parking brake operation
- Tie rods / drag link / steering gear

- Shocks (leaks/damage)
- Bushings & mounts
- Battery load test
- Battery cables/terminals
- Wiring harness rub-through
- U-joints
- Carrier bearing
- Driveshaft play

Unit PM-C — FULL SERVICE

(Includes all PM-A and PM-B items)

- Full DOT Appendix A inspection
- Brake stroke measurement
- Steering lash measurement
- Frame & crossmembers
- Fuel tank securement/leaks
- Exhaust clearance/leaks
- Transmission service (if due)
- Differential fluid check/service
- Cooling system pressure test
- Full chassis lube
- Wheel bearing endplay
- ABS system
- TPMS (if equipped)
- ADAS sensors (if equipped)

Trailer PM-A — BASIC

- Tire pressures
- Tread depth / wear pattern
- Wheel seal leaks
- Lug nuts
- Marker/clearance lights
- Brake/turn lights
- 7-way plug
- Wiring harness
- Coupler/kingpin
- Safety chains
- Breakaway battery test

Trailer PM-B — INTERMEDIATE

(Includes PM-A)

- Brake lining thickness
- Drums/rotors
- Magnets/air chambers
- Slack adjuster stroke
- Brake hoses/lines
- Leaf springs/hangers
- Equalizers & bushings
- Axle alignment (visual)
- Bearings inspected
- Endplay check
- Grease hubs (if applicable)

Trailer PM-C — FULL

(Includes PM-A and PM-B)

- Frame rails
- Crossmembers
- Weld integrity
- Floor/decking
- Ramp hinges/pins
- Reflective tape
- Fire extinguisher (if equipped)
- Spare tire
- Landing gear operation

Equipment PM-A — BASIC

(Skid steers, loaders, forklifts, generators, small equipment)

- Engine oil & filter
- Coolant level
- Hydraulic fluid level
- Drain water from fuel filter
- ROPS/FOPS condition
- Seat belt
- Backup alarm
- Lights/beacons
- Grease all zerks
- Tires/tracks
- Hoses (leaks/damage)
- Battery & cables

Equipment PM-B — INTERMEDIATE

(Includes PM-A)

- Cylinder leaks
- Quick-couplers
- Control linkages
- Drive motors
- Hubs/planetaries
- Chain case (if applicable)
- Clean radiator & oil cooler
- Fan belt & tensioner

Equipment PM-C — FULL

(Includes PM-A and PM-B) Hydraulic filter

- Fuel filter
- Air filter (primary & secondary)
- Transmission service (if applicable)
- Boom arms & pivot pins
- Bucket/attachment condition
- Frame cracks/welds
- Full function test
- Control calibration (if applicable)
- Hour meter updated
